## FOLDING BOARD | Premium Packaging Solutions

Featuring a superior print surface for inks, foils, and embossing that visually inspires, **neenah**® folding board is available in a wide variety of colors, calipers and sustainable alternatives. Choose from bright whites, neutral naturals, striking metallics, shimmering textures, deep blacks, and versatile duplexes. NEW lustrous Pearl adds a touch of shimmer to an already exquisite palette of whites.

### Features and Benefits

- Available readymade in 29 colors, including timeless whites, a rich palette of stunning colors and intricate textures, and a NEW radiant Pearl option
- Featuring a range of finishes, from elegant Eggshell, Canvas, and Stipple to luxuriously pleated Rivercord, supple Soft Touch, and natural Raw®
- Available in custom colors, finishes, and weights, with impeccable color matching ability for consistency at all touch points
- Sophisticated uncoated or luxurious coated options
- Ideal surface for printing, embossing, foil stamping, die-cutting and gluing
- Easily scores and folds through the converting process
- Offers great dimensional stability
- Calipers ranging from 16 to 26 pt

neenah® folding board papers are:

- FSC® Certified, ensuring all **neenah**® folding board papers meet the mark of responsible forestry.
- Green-e Certified, ensuring all **neenah**® folding board papers are made with 100% renewable green electricity.
- All 100% post consumer colors are Processed Chlorine Free (PCF).
